**DETAILED ACTION**

***Response to Amendment***

Applicant's Amendment filed June 13, 2005 has been fully considered and entered.

***Allowable Subject Matter***

Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art cited on the PTO-892 form attached to the previous Office action is the most relevant prior art known, however, the invention of claims 1-15 distinguishes over the prior art of record because none of the references either alone or in combination disclose or render obvious:

- a method for fixation of optical fiber in an optical device module as defined in claim 1, comprising affixation of the optical fiber by means of a solder in an intermediate part of the fixation pipe, an external surface of the intermediate part of the fixation pipe comprising a groove for a copper bit, the intermediate part of the fixation pipe being positioned outside the case in combination with the other limitations of claim 1; or
- a fixation pipe as defined in claim 8, comprising planning for alignment of solder formed on an internal surface of an intermediate part of the fixation pipe, a groove for a copper bit formed on an external surface of an intermediate part of the

fixation pipe, wherein the planning and the groove are located outside the case in combination with the other limitations of claim 8.

Claims 2-7 and 10-15 depend from claim 1; and claim 9 depends from claim 8. Hence, there is no reason or motivation for one of ordinary skill in the art to use the prior art of record to make the invention of claims 1-15.

***Conclusion***

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
